

HURRICANES

Charlie...Francis...Ivan...Jeanne...Katrina...Wilma...Ike...Norbert...

They all took a shot

Cravo Retractable Roofs withstood them all!

Cravo Retractable Roofs seen on left of photo - 3 days after the eye of Hurricane Wilma

The Cravo Retractable Roofs withstood the elements

The non Cravo roof was in tatters

Cravo Retractable A-Frame Greenhouses **survives** **3** Hurricanes!

Cravo A frame Retractable roofs in Florida took direct hits from Hurricane Francis, Jeanne and Wilma.

The 6 year old roofs were closed to protect the plants during the 200 kph winds from Hurricane Wilma and did not sustain any damage.

The packing shed (on right) with the metal roofs sustained significant damage.

Cravo Retractable Roofs, seen on left of photo - 3 days after the eye of Hurricane Wilma

Cravo structures intact on left

- Protect your investment in the structure and crop using Cravo retractable roofs
